Education

12th
Sarthak Sr sec school
March 2023 - March 2024

Technical Skills

Node.js JavaScript
MongoDB Express.js
RESTful APIs CSS3
HTML5
Responsive Web Design

Soft Skills

Problem Solving
Effective Communication
Teamwork

Lokesh Sharma

Full Stack Web Developer

Professional Summary

Innovative Full Stack Web Developer with proficiency in the MERN stack and a keen ability to quickly learn new technologies, including Generative AI. Experienced in creating scalable APIs, optimizing database models, and establishing seamless frontend-backend integration. Recognized for enhancing development workflows and delivering robust, innovative solutions.

Projects

QR Code-Based Calorie Calculator

JavaScript React Git Node.js Express.js
MongoDB RESTful APIs CSS3 HTML5

Responsive Web Design

- Developed a full-stack web application that facilitates calorie calculation through QR code scanning, leveraging JavaScript, React, Node.js, and Express.js.
- Worked on both the front-end and back-end to ensure seamless integration, providing real-time updates and a user-friendly interface.
- Implemented CRUD functionality for inventory management, utilizing MongoDB to manage and optimize database queries.
- Contributed to responsive web design for enhanced user experience across different devices.

Smart-Home-Manager

[Live Demo Link](#) [Github Repo Link](#)

JavaScript Node.js MongoDB Express.js
Responsive Web Design CSS3 RESTful APIs
HTML5 Git

- Co-developed a centralized platform for managing smart home devices, involving a JavaScript and Node.js-based backend.
- Designed efficient server-side APIs using Express.js, enabling unified device control and routine automation.
- Utilized MongoDB for data management, focusing on energy tracking and control features.
- Collaborated with a team of developers, ensuring seamless data flow and integration between multiple devices and the centralized platform.
